

**RFP ADDENDUM # 3**

**Date: 01/25/2018**

**RFP No. 18-008-22**

**Material and/or Service: Self-Provisioned Network**

**RFP Due Date: 02/22/18**

**Time: 2:00 p.m., Local Time**

**Opening Location: 13801 E Benson Hwy, Ste. B Vail, AZ 85641**

Please read the following comment and change your response (if applicable). Sign and add addendum in your response to the request for qualifications.

This RFP is amended as follows:

1. Can you confirm whether IP Base or IP Services IOS image is required for the network switches? **IP Services image for full Layer 3 capabilities.**
2. Can you provide a listing of sites to include shared sites?

**The shared sites for the District are as follows:**

- **Pantano is shared with Andrada**
- **Vail Innovation (Vail Digital Learning) is shared with Empire**
- **Senita Valley is shared with Rincon Vista**
- **Corona Foothills is shared with Sycamore**

**The single sites for the District are as follows:**

- **Acacia Elementary**
- **Cienega High School**
- **Copper Ridge Elementary**
- **Cottonwood Elementary**
- **Desert Sky Middle School**
- **Desert Willow Elementary**
- **Three sites are still To Be Determined (TBD)**
- **Esmond Station K-8**
- **Mesquite Elementary**
- **Ocotillo Ridge Elementary**
- **Old Vail Middle School**
- **Vail Academy and High School**
- **Vail Education Center; dba: District Office**

3. RFP shows Civano Community School (10625 E Drexel Rd, Tucson) and Data Center (1215 E Pennsylvania St, Tucson) which are not listed, I assume that these 2 sites are to be included in the total WAN solution? With 23 listed in the RFP and 4 sharing the same connection, does this mean 19 total connections? **Civano Community School and the Data Center (1215 E. Pennsylvania St.) have been removed from the original list of locations. The shared sites will use the same circuit. Thus 19 total connections are required. 12 Individual sites, 3 New Sites (TBD) and 4 shared connections.**

4. Is a separate circuit needed for the 4 shared sites? Meaning do we need to price out equipment for 4 or 8 circuits for the locations that are shared? **Shared sites can use the same circuit; they are the same physical network.**

5. **The due date for this solicitation has been extended to February 22, 2018.**
